

PLANTS. RECYCLED.

ReStalk is proud to introduce a 'Recycled Cannabis' card-stock.

In reclaiming this agricultural waste that historically

has been burned or sent to a landfill, ReStalk is able to provide one of the most environmentally conscious paper products on the market today. All products are proudly sourced, processed, and manufactured entirely in the USA.

SPECIFICATIONS

BE A PART OF A CIRCULAR ECONOMY

Energy & Water

ReStalks hemp based pulp production requires less energy and less water than traditional wood pulp mills.

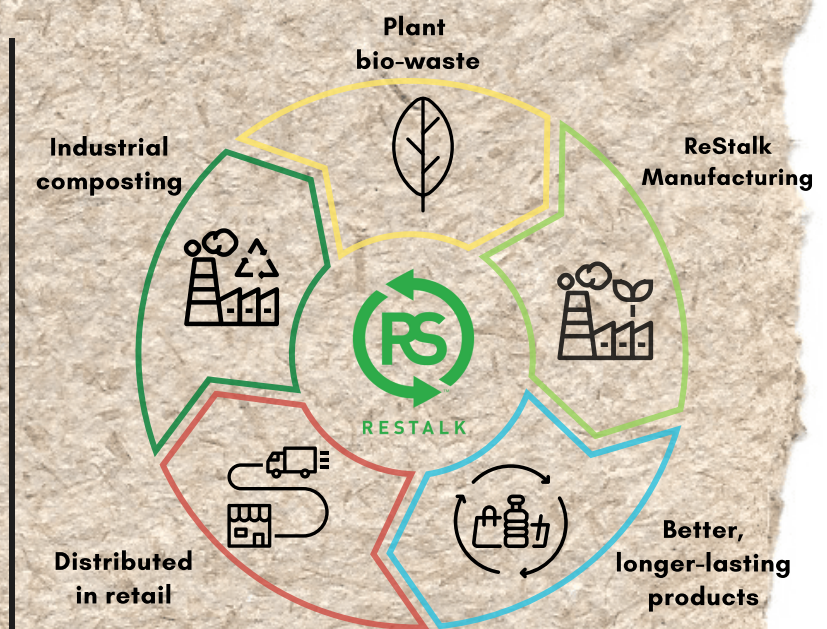

Circular Waste

We use cannabis waste to create highly sustainable pulp for use in a wide range of paper & plastic packaging products.

Sulfur Free Process

No NOX and SOX emissions during manufacturing.
